For PMNs, SNUNs, TMEAs, LVEs, and LOREXs filings

Use of this form is recommended, but not required. This Document Contains CBI: Yes⊠ $NO\square$ **Technical Contact:** Submission number (if known): I5C3RN **Technical Contact Phone Number: Submitting Company Name: Information element(s) claimed as CBI:** Please identify the information element(s) that you are substantiating from the list below. You are responsible for substantiating each information element claimed as CBI (unless that item is exempt from the substantiation requirement—see endnote 1). Any information element that is not specifically identified as subject to a confidentiality claim and substantiated as such in your response to this letter, it shall be determined that you have waived your CBI claim. If a single substantiation response applies for all information claimed as CBI, you should indicate this in your substantiation response. If different substantiation responses are necessary to support CBI claims for different information types, you should provide separate substantiation responses for each information type, clearly identifying the information for which each substantiation applies in the free text boxes (e.g. Question B) or in the additional information box at the end of this form. ☑ Signature and Date of Authorized Official (Page 2) □ Production Volume (Part I Section C.1)* \boxtimes Category of Use (Part I Section C.2.a.1)* ☐ Signature and Date of Agent (Page 2) ☑ Person Submitting Notice (Part I Section A.1.a) ☐ Use Production (Part I Section C.2.a.4)* \square % in Formulation (Part I Section C.2.a.6)* ☐ Agent (Part I Section A.1.b) ☐ % of Substance Expected Per Use (Part I Section ☐ Joint Submitter (Part I Section A.1.c) $C.2.a.8)^*$ ☑ Technical Contact (Part I Section A.2) ☐ Site Identity (Part II Section A.1.a) ☐ Prenotice Communication (PC) (Part I Section A.3) ☐ Number of Sites (Part II Section A.1.a) ☐ Site Operations (Part II Section A.1.b) ☐ Previously Submitted Exemption Application (Part I Section A.4) ☐ Previously Submitted Bona Fide (Part I Section A.5) ☐ Amount and Duration (Part II Section A.1.c)* ☐ Process Description (Part II Section A.1.d)* ☐ Chemical Class (Part I Section B.1.a) ☐ Chemical Name (Part I Section B.1.b)** ☐ Worker Activity (Part II Section A.2.1) ☐ Molecular Formula (Part I Section B.1.d)** ☐ Physical Form(s) & % New Substance (Part II Section \square # of Workers Exposed (Part II Section A.2.8) ☐ Chemical Structure Diagram for Class I (Part I Section B.1.e)** ☐ Precursor Substances Class II (Part I Section B.1.e.1)* ☐ Maximum Duration (Part II Section A.2.10-11) ☐ Reaction or Process for Class II (Part I Section ☐ Release Number and Amount of New Substance $B.1.e.2)^*$ Released (Part II Section A.3.1-2) ☐ Medium of Release and Control Technology and ☐ Range of Composition and Typical Composition for Class II (Part I Section B.1.e.3)* Efficiency (Part II Section A.3.4-5) ☐ Polymer Information (Part I Section B.2.a)** ☐ Destinations of Releases to Water (Part II Section A.3.7) ☐ Monomer or Other Reactant Specific Chemical Name ☑ Operation Description (Part II Section B.1)*

В.	Will disclosure of any information element claimed as CBI likely result in substantial harm to your business's competitive position?	▼ Yes
		□ No
	(If you answered yes, please describe with specificity the substantial harmful effects that would result to your competitive position if the CBI information element is made available to the public.)	

If you are claiming multiple information elements, please make sure to provide information	on					
for EACH element you identified above. If a single substantiation response applies for all						
information claimed as CBI, you should indicate this in your substantiation response.						
Authorized Official, Person submitting (Part I A.1.a) and Technical Contact (I.A.2.).						
Company and Site Information (Part I.A, Product SDS elements):						
Disclosure of the fact that the Company is submitting this PMN, including information that of	one could trace					
back to the Company's identity (e.g., technical contacts, trade name of product and CAS Req

development (R&D) activities and plans to grow its market segment. Upon obtaining this information, a						
competitor could strategically increase its relative amount of R&D activity to engage in comp	-					
decrease such activity to avoid duplicative actions, saving time and resources. While the ame						
harm cannot be accurately quantified, the harm would be substantial because the extent of co						
activity is highly proprietary information and disclosure of such information would provide of	competitors with a					
commercial advantage that the Company would not have.

This information is considered to be trade secret because disclosure would give competitors a	•					
knowing how to use the PMN substance without the necessity of specialized technical expert						
commensurate investment in R&D. Disclosure would therefore reduce a competitor's time to market by a						
significant number of years, enhance its relative profitability, and undermine the Company's incentives to innovate and manufacture these products in the U.S. This answer applies to all types of information claimed
